

PERTRAIN VISITOR INDUCTION SYSTEM

The Pertrain visitor induction system provides an easy, consistent and efficient means of addressing your Work Health and Safety obligation to ensure visitors and short-term contractors are aware of their safety obligations while they are at your workplace.

The visitor induction is customised to suit your organisational requirements and is developed to communicate and report the following.

- Corporate welcome message
- Organisational Policies and Procedures
- Workplace emergency evacuation procedures
- Workplace safety and risk identification requirements
- Visitor PPE requirements
- Identified workplace hazards
- Record of attendance
- Timekeeping for visiting contractors.

The induction system content is designed to suit your organisation's individual workplaces, functions and locations, and can include a mixture of delivery mediums including:

- video
- animations
- voice over
- photographs
- 3D modelling
- cartoons.

The induction system can be hosted on a variety of units to suit every organisational application.

- Handheld Windows Based Tablet
- Touchscreen Desktop
- Standalone Touchscreen Kiosk

The system can be swipe card and barcode scanner enabled for **employee**, **frequent visitor** and **contractor** recognition and ease of access after initial induction completion.

The induction system is adaptable and can include many different types of inductions on the one system, for example:

- Office visitor induction
- Warehouse visitor induction
- Delivery driver induction
- Maintenance service induction
- Stocktake service induction
- Supervised worker induction.

The centralised database stores all details entered and generates reports as required. This gives you piece of mind that your workplace risk mitigation and duty of care has been communicated and acknowledged on each and every visit.

The Pertrain visitor induction system presents you with a simple solution to multiple sign in registers, tracks supplier interaction and delivery of services and tells you immediately who is at your workplace, where they are and who they are visiting.
